ELIXIR HORMONIGEN

(HEWLETT'S)

A powerful and palatable preparation of the Hormones:—Thyroid, Pituitary, Ovary and Testes, constituting a valuable remedy for Bronchitis, Asthma, Chorea, etc., in Dogs.

This preparation has also been recommended for Rickets and Arthritis in young dogs and particularly in the treatment of Skin Diseases. Many of these, such as Eczema, are largely the result of glandular deficiencies, and Elixir Hormonigen leads to great improvement—often curing forms of this disease that have resisted all other remedies.

It is also extremely useful as a general tonic.

Capt.———, M.R.C.V.S., has had great success in the treatment of Bronchitis and Asthma, the animal being cured in one month. A paralysed Terrier, that could not stand or raise the head and had no co-ordination of its limbs, was treated with Elixir Hormonigen and made a rapid and perfect recovery.

"I have had most satisfactory results in using this elixir in cases of chorea, and allied nervous complaints occurring as a sequel to so-called distemper; it has a most surprising and definite curative effect in even advanced and chronic cases." J. F. T. ———, M.R.C.V.S.

"In dogs and cats I use your Elixir Hormonigen as a tonic after all debilitating diseases and fevers. It is palatable, appetising and works wonders." E. J. L. ———, M.R.C.V.S.

The dose for Terriers, etc., is one teaspoonful 3 or 4 times a day **before** food. Airedales may be given a dessertspoonful and larger dogs in proportion. Puppies, up to 6 months, half the above doses.

Price: 6/6 per lb.; W. Qts., 6/- per lb.

Also in bottles, labelled "TONIC ELIXIR FOR DOGS," with dose,
2 oz., 15/-; 4 oz., 25/- per doz.

Hormonigen Tablets

(HEWLETT'S)

Containing various pluriglandular extracts that have been found useful in Veterinary practice.

Hormonigen No. 1, for paralysis in dogs, 3/3 per 100; 30/- per 1,000. For sterility in cattle, particularly where œstrum is absent, 60-grain tablets, in tubes of 10 tablets, **1/6** per tube.

Hormonigen No. 5, for sterility in bitches, **3/6** per 100.

Hormonigen No. 6, for sterility in dogs, **2/6** per 100; double strength, **4/6** per 100.
